

Warranty Conditions

Dişsan provides two year warranty for the gearboxes.

Dişsan guarantees to send the spare parts which prove to be defective in material or workmanship free of charge within the warranty period. Wearing parts are excluded. Any repair service request outside Turkey is out of Dişsan's scope. Dişsan will not accept any service costs incurred.

This warranty is valid only if the gearbox is stored, installed, started up and maintained according to the operating instructions and is used under allowed operating conditions. The warranty shall be void if the product is not stored, installed, operated, serviced and maintained according to Dişsan's instructions and is in any way subject to improper storage, accident, damage, misuse, abnormal operating conditions, repair or modification by the Buyer or third party without the prior consent of Dişsan.

Dişsan's obligation under this warranty is limited to send new parts to replace the defective parts. In no event will Dişsan be liable for stopped plant operations, physical injuries or property damage resulting from any goods provided by Dişsan. Dişsan shall not be liable for any costs for removal or re-installation of the product. In no event Dişsan be liable for any consequential, indirect or incidental damages or losses.
